

Christian Tumandao

christiantumandao@gmail.com | (973) - 220 -5644 | New York City, NY

Portfolio: <https://christiantumandao.github.io/>

Skills

Languages: JavaScript, TypeScript, Java, Python, HTML/CSS

Frameworks & Technologies: Node.js, React, Express.js

Cloud & Databases: AWS S3 & RDS, GCP Firestore

Education

University of Pittsburgh

Pittsburgh, PA

Bachelor of Science: Computational Biology | GPA: 3.67

Minors in Chemistry & Economics

Projects

Chess Flashcards, | React, GCP/Firebase | chess-flashcards.com

- Designed, implemented and deployed a full-stack web application for searching and interactive testing chess openings.
- Integrated Firebase Firestore and implemented JWT authentication for secure user storage and session management.
- Implemented an AI chess engine to evaluate current position and best moves.
- Designed multiple testing modes, including trie-based flashcards for user adaptability and time-based repetition logic.

Communal, React, Express.js, GCP/Firebase

- Developed and deployed a full-stack, mock social media website that allows users to create communities and post events and listings.
- Implemented a REST API for full CRUD operations using Express.js and Google Cloud Firestore.

Experience

Root Hill Cafe

New York City, NY

Barista, Cook

December 2022 - Present

- Worked with diverse teams and customers, fostering adaptability in a fast-paced environment.
- Trained and mentored new hires, maintaining a collaborative workflow.

Koes Lab, University of Pittsburgh School of Medicine

Pittsburgh, PA

Researcher

Jan 2021 - May 2022

- Developed and executed computational pipelines to process and analyze large protein structural datasets.
- Collaborated on software-driven research projects, integrating custom scripts with existing scientific tools and libraries.
