christianptumandao@gmail.com | (973) - 220- 5644 | New York City, NY

Portfolio: <https://christiantumandao.github.io>

SKILLS

Languages: Java, Javascript, TypeScript, Python

Frameworks/Technologies: Node.js, React, Express.js, Spring Boot, Git, REST API, JSON

Cloud/DevOps: AWS (RDS, S3, EBS), GCP (GCS, Firestore)

PROJECTS

Chess Opening Flashcards, *React, Firebase GCP*

- Founded a responsive, full-stack web application for searching, learning, and self-testing chess openings.
- Integrated Cloud Firestore to store user and application data; deployed via Firebase Hosting (GCS).
- Designed multiple flashcard-style testing modes with spaced repetition logic, timed performance tracking, and trie-based flashcard sets for user adaptability.
- Enabled a search filter functionality for chess openings by name and ECO code.

Communal, *React, Express.js, Firebase GCP*

- Developed a full-stack, mock social media website that allows users to create communities and post events and service listings.
- Implemented a REST API to perform CRUD operations on server's database using Express.js and Cloud Firestore.
- Designed interactive UI with CSS and component-based layout using React.

EXPERIENCE

Freelance Web Developer

New York City, NY

Freelance

Aug 2023 – Present

- Develops a series of full-stack and landing page websites using Javascript, React, Node.js, and HTML/CSS.
- Contribute, edit, and manage websites for small businesses.

Koes Lab, University of Pittsburgh School of Medicine

Pittsburgh, PA

Undergraduate Researcher

Jan 2021 – May 2022

- Developed Molecular Dynamics simulation pipelines for execution and analysis using Python and Bash.
- Installed and integrated machine learning models to enhance accuracy and efficiency.

EDUCATION

University of Pittsburgh

Pittsburgh, PA

B.S. Computational Biology, GPA: 3.7
